

Pequannock, Lincoln Park, and Fairfield Sewerage Authority (Two Bridges Sewerage Authority)

Laboratory Technician

The Two Bridges Sewerage Authority (TBSA) is seeking a qualified individual to serve as a full-time Laboratory Technician at our facility in Lincoln Park New Jersey. TBSA has been on the front lines of environmental protection for over 40 years and has treated more than 75 billion gallons of wastewater over that time. Our Mission, to “Protect, preserve and enhance water quality and the natural environment”, cannot be achieved without daily analysis of our treatment plant’s performance. Our NJDEP certified laboratory provides vital information to our operators and is essential to ensuring our treatment plant is running at peak performance.

The Laboratory Technician is responsible for overseeing and/or assisting with all aspects of sampling and testing for a regional public wastewater treatment facility. Specific responsibilities include:

- Daily coordination with the Lab Manager and Plant personnel.
- Analyzing samples taken from various locations within the treatment plant and pump stations.
- Coordination and oversight of outside laboratory contracts.
- Maintain equipment and supplies needed for daily testing.

Qualifications/Requirements

- Bachelor’s degree (with coursework in chemistry, biology, or environmental science) preferred. New graduates are encouraged to apply.
- Laboratory experience preferred.
- Proficiency in Microsoft Excel and Word.
- Detail oriented.
- Self-starter.
- Exceptional verbal and written communication skills.

TBSA staff, ranging from an operator-in-training to the Executive Director, are all goal-oriented professionals that take pride in their work. TBSA’s culture is one of collaboration, ownership, and accountability. We are looking for a candidate who will thrive in this environment and become an integral part of our team.

This position offers advancement opportunities. On-the-job training will be provided to suit your experience. TBSA offers competitive salary and benefits package. Interested and qualified applicants are encouraged to visit our website for a detailed job description at www.tbsa.net, and may forward their resume, cover letter, and/or any questions pertaining to this position to knapolitano@tbsa.net (subject heading: Laboratory Technician Position).
